

KEYNOTE - PATRICIA MORGAN WONDROUS WOMEN

Women have stepped out of their girdles to accomplish much. Global TV and the YWCA's **Women of Vision** award acknowledges women's achievements. **Patricia Morgan** is a recipient who rejected the expectation to be a *nice lady*. Indeed, seldom do *well behaved and proper ladies* make history or effect needed change. It takes a woman of courage, a woman of action, a woman who is willing to say "yes," "no" or "it depends" to make the world right. It is women who are pulling their countries out of poverty using the micro-finance movement. It is women who read to their children. It is women who do the world's *real work* of caring for the disadvantaged, the sick and the children. Learn, as a Canadian woman, what you share with such heroes as Nellie McClung. The story of the **Famous 5** is uniquely Canadian and celebrates the 1929 announcement, "Women are persons." It's important to acknowledge our accomplishments, leadership ability and resilience. Join this session to speak well of yourself, count your blessings, and celebrate all that *you do* and all that *you are*.
